# SERVE CONNECT

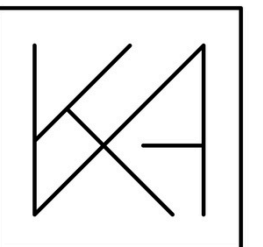

**Mission: Fostering positive change through sustainable police-community partnerships.**

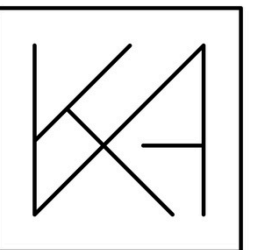

**Vision: A future where police and communities work together to promote safety and thriving for all.**

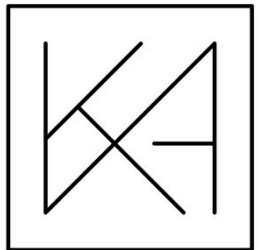

“Thank you again for all that you do, not only for the community but also for helping all officers make an impact in someone’s or each other’s lives. I have always been a community officer, and for a time, it was kinda seen as unproductive or “not cool” for officers to take value in working in the community. Thanks to people like you and Serve & Connect, having a giving heart is something I’m seeing more of.”

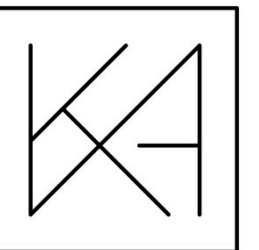

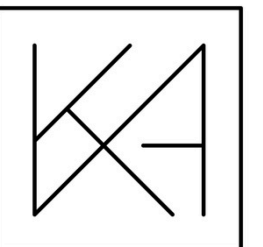

**relationships matter.**

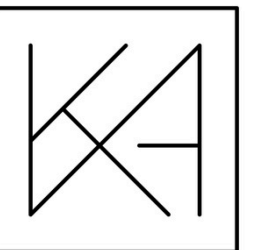

# Practice Courageous Leadership

1. Keep the main thing the main thing.
2. Be authentic... and vulnerable.
3. Assume generously.
4. Invest in listening.
5. Seek common ground.

**Never lose sight  
of the **humanity** in the numbers.**
